## Range of Projects Nationwide

## Range of Aras Engineering Group Projects Nationwide

Drawing on years of experience in the fields of engineering, design and implementation of mega-projects, Aras Engineering Group is proud to take on a major role in the development of Iran with a completely new and knowledge-based approach.

This company, getting highly ranked in the areas of water and wastewater facilities, oil and gas, utilities and equipment and transportation, and having professional staff in all fields of engineering and taking advantage of comprehensive project management software, is able to execute large projects in the full range of work.

This map indicates this case and shows the range of company's projects nationwide.

# Vision, Mission & Values

## The Vision of the Organization

Aras engineering group, effectively utilizing competent human capital and advanced technologies, is recognized as **one of the top ten contractor firms in "Iran" in the 2025** horizon and have an active participation in regional international markets.

## The Mission of the Organization

**Managing and implementing of quality, safety** and environmental protection in EPC Projects in fields of oil, gas, petrochemicals ,energy (Water , Power and steel industries.).

## Value Statement

- Observing professional ethics and having work ethic
- Adherence to national and international laws and regulations
- Having creativity and innovation spirit
- Having teamwork and group work spirit
- Emphasis on knowledge-based organizational activities and behavior
- Attention to quality and continuous improvement of systems and processes
- Superior performance in all activities and compliance with quality standards in services
- Job creation and participation in the country's economic recovery
- Having modern knowledge and technology
- Commitment to environmental protection
- Social responsibility

## Competitive Advantage

### HSE QC & QA

#### Safety (HSE)

The mission of the HSE unit of the Aras Company is to preserve human resources, equipment and the environment by promoting a culture of safety and applying **international safety standards** and guidelines to prevent and reduce accidents. Identification of hazards, **risk assessment**, and the implementation of pre-incident control measures are the most important targets in the HSE of Aras Company.

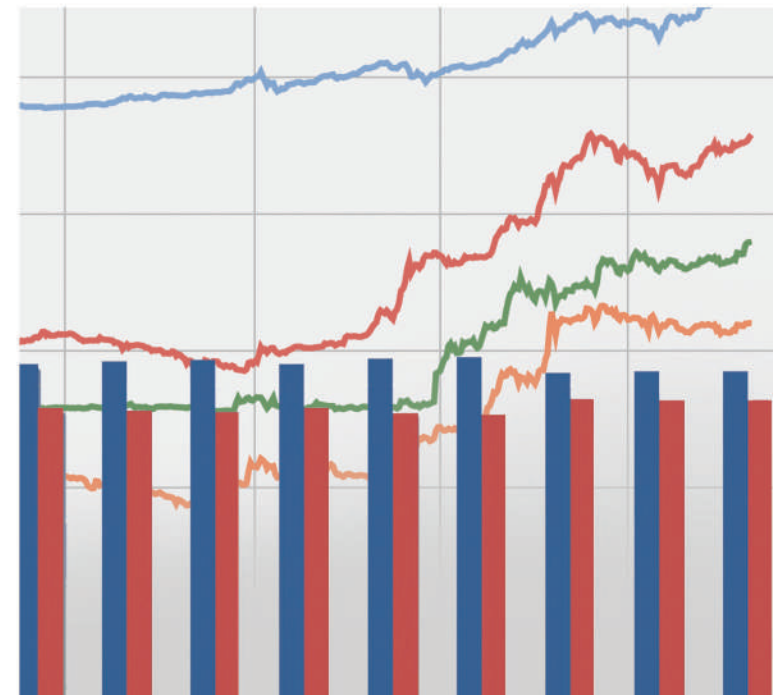

The company has already done the 15,000,000-man-hour project without any risk or hazard.

#### QC & QA

Following to our Vision to Build a Leading **World Class Organization** Capable of Managing & Implementing, Multidisciplinary Engineering, Procurement and Construction Projects.

we are committed to:

- 1 : Adhering to all Specifications, Requirements and Quality standard Agreed upon in Contracts.
- 2 : Remaining Unflinching Focused on the Objectives of its Quality.
- 3 : Abiding by Relevant National & International Laws, Regulations & Standards.
- 4 : Implementing a Continual Improvement System.

### PMO Finance

#### PMO

Companies seeking more efficiency and tighter monitoring of all projects are opening project management offices (PMO) in growing numbers. In this regard, the Aras Engineering Group has set up a PMO Office in this organization.

A management structure which obliges to handle following terms :

- Define & develop **management methodologies**.
- Evaluation of the projected based on the **excellency model & performance**.
- Establish a **knowledge managment system**.

#### Finance & Investment

One of the most important problems for some of employers is the proper financing of projects.

In this field, Aras Company with expertise competent **can provide a variety of investment and financing method** to employers.

The feature of these methods are the rapid operation of the project facility, while maintaining the time value for employers.

## Done Projects Oil & Gas

## Done Projects Water & Wastewater

### Operational and Executive background of Aras Engineering Group

Project	Year
• Managing contract for the supervision of the desulfurization of oil, gas, isomerization and lateral units – Shiraz	2018-2019
• Utilities and Offsites Plant in Shohadaye Marvdasht Petrochemical Complex - Marvdasht	2015-2017
• Polyethylene transmission line network, Gas nutrition steel network - Gilan	2015-2017
• Polyethylene transmission line network, Gas nutrition steel network - Roodbar	2015-2016
• Foundation of 29 tanks of petroleum products in Bandar Abbas oil terminal- Bandar Abbas	2014-2016
• Polyethylene transmission line network, Gas nutrition steel network - Heidarieh	2013-2015
• Construction and installation of spherical and cylindrical storage tanks - Bandar Abbas	2012-2014
• Polyethylene transmission line network, Gas nutrition steel network - Fasa	2009-2011
• Execution of piping work in Gheshm Refinery - Gheshm	2008-2010
• Polyethylene transmission line network, Gas nutrition steel network- Lamerd	2008-2009
• Piping operation of Parsian Gas Refining Company - Parsian	2006-2007
• Gas supply line and ancillary facilities - Kermanshah	2006-2008
• 13800 meter Transmission lines, power lines and gas network- Kazeroon	2006-2007

### Operational and Executive background of Aras Engineering Group

Project	Year
• Procurement, Construction, Test and Commissioning of Trunk Main, Interceptors and Laterals of Zone 1 – Abadeh	2017 - 2020
• Utilities and off sites plant for MIS petrochemical - Masjed Soleiman	2016-2019
• Gas supply line network and TBS and CGS stations-Kermanshah	2016-2019
• Polyethylene transmission line network and TBS and CGS stations-Sarakhs	2015-2018
• Utilities and off sites plant for Aluminium project- Lamerd	2015-2019
• Irrigation and drainage network and auxiliary facilities- Ilam	2014-2018
• Wastewater pumping station of Fars Industrial Estates Co- Shiraz	2014-2015
• Pumping station and Modification of Water Network-Tehran	2013-2014
• Irrigation and drainage network- Ilam	2012-2013
• Distribution and Water Tanks network- Chabahar	2012-2015
• Wastewater treatment plant of Eghlid Industrial Estate- Eghlid	2012-2014
• Lishter plain Irrigation and drainage network and auxiliary facilities- Gachsaran	2011-2018
• Complete of wastewater treatment plant Kazeroon- Kazeroon	2011-2017
• Water transmission line, tanks and other side facilities- Dadin in Kazeroon	2010-2011
• Transmission line and side facilities- Chabahar	2009-2011
• Wastewater collection system- Rahamt Abad Village	2009-2010
• Water transmission line, construction of tanks pumping station and other side facilities- Mehriz in Yazd	2008-2010
• Water transmission network-Shiraz	2008-2009
• Water transmission line, distribution network and pumping station-Shiraz	2007-2008
• Wastewater collection network-Bandar Abbas	2006-2007
• Water distribution network and installation of branches- Shiraz	2006-2006

## Current Projects

### Oil, Gas & Petrochemicals

## Current Projects

### Water & Wastewater

#### Oil, Gas and petrochemical current Projects of Aras Engineering Group

Project	Year
• Plant for production of Sodium Cyanide Briquettes	2020 - Now

#### Water and Wastewater Current Projects of Aras Engineering Group

Project	Year
• Construction of Wastewater treatment plant of Kazeroon- Kazeroon	2016 - Now

## Current Projects

### Steel Industries

#### Steel Industry Current Projects of Aras Engineering Group

Project	Year
• Civil works of melting Unit-Steel plant-Ghaenat	2019 - Now
• Civil works of direct reduction Unit-Steel plant-Ghaenat	2019 - Now
• Utility and steel plant – Ghaenat	2018 - Now

## Investment Projects

### Youth Family Complex

- *Layout specifications:* Land area of 2000 sq. M
- *Uses of building:* Commercial and Sports
- *Number of Floors:* 6

### MIS Petrochemical

- *EPCF utilities offsites plant in Masjed Solieman petrochemical complex with the capacity of 2000 m<sup>3</sup> / hr.*
- *Contract Duration:* 18 Months
- *Duration of operation:* 1 year
- *Investment amount:* 270,000,000 Rial

### Sodium Cyanide Briquettes

- *Plant for production of Sodium Cyanide Briquettes*
- *Major Feeds :* Natural Gas, Ammonia and Oxygen
- *Product Capacity:* 4000 ton/years
- *Timeline of the project:* 2.5 years for build /commissioning for 10 years
- *Project Budget:* 15 million Dollars

## Investment Projects

### Petrochemicals of Mahshahr

- Investment in the production of methylamines
- Duration of operation: 20 years
- Construction time: 2 years
- Progress: Feed preparation

### Foundation of 29 tanks of petroleum products in Bandar Abbas oil terminal

**Land area:** 25 hectares in Persian Gulf port Special Economic Zone

**Number of Cases:** 49 Tanks

**Tank's volume:** 5 million barrels

**Construction of a 100 thousand-ton berth**

**Construction of a 20 thousand-ton berth**

**Construction of the pipeline network and connection to the docks and railways**

## Endorsement of Bank

Assignment Of Bank Account  
at for consideration the undersigned  
locally sets over to my name  
in the bank  
located at bank  
on deposit

Tose'e Ta'avon Bank

Ref. No.: 2400/2139  
Date: February 13, 2019

To: C.E.O of AB RAH SAZEH JONOOB

Referring to letter No.118 date of February 13, 2019 (1397/11/24) from your company regarding credit limit both Rail and Euro currency, herewith it is notified that the mentioned company credit line equals to 8,000,000 Euro at this bank (Central branch of shiraz) is confirmed.

Central branch of shiraz

Bank Mellat

Ref. No. : 39586/117  
Date: February 17, 2019

To: Ab Rah Sazeh Jonoob Co.

With respect, following your company request regarding Euro Credit Limit announcement, at this bank branch, the Credit limit of (10 million Euro) is announced.

Mellat Bank – Shiraz Esteghlal Branch

## Awards

**Description of Awards:** Procurement and Execution of Eghlid Waste Water Treatment Package  
**Issuance Authority:** Deputy of Civil and Environmental Officer of Fars Industrial Park

**Description of Awards:** Procurement and Execution of Abadeh Industrial Park Gas transmission Pipeline  
**Issuance Authority:** Deputy of Civil and Environmental Officer of Fars Industrial Park

**Description of Awards:** Mellat Bank Appreciation letter  
**Issuance Authority:** Management of Mellat Bank Branches in Fars Province

**Description of Awards:** Procurement and Construction of Special Economic Zone of Lamerd Water Supply Project.  
**Issuance Authority:** Head of Safety and Environmental health of Special Economic Zone of Lamerd.

**Description of Awards:** Execution of the irrigation sub-network of one, two, five, and six of Leishter plain civil units  
**Issuance Authority:** Chairman of the Board and Managing Director of Kohgiluyeh and Boyer Ahmad Regional Water Company

**Description of Awards:** Complementary Execution of the wastewater treatment plant in Kazeroun  
**Issuance Authority:** Managing Director of Fars Province Water & Wastewater Company

**Description of Awards:** Procurement and Execution of pipelines and sub-networks of sprinkler irrigation of civil unit No.1 of Hoilian  
**Issuance Authority:** Water and Soil Management for Engineering Issues of Jihad Agriculture Company of Ilam Province

**Description of Awards:** Gas Transmission Pipeline to Heidariyeh villages axis of Gilane Gharb City  
**Issuance Authority:** Director of Engineering and Execution Affairs of Kermanshah Gas Company Projects

## Certificates

**Standard:** IMS  
**Certificate Description:** Integrated Management System Standard  
**Date Validity:** 2019

**Standard:** OHSAS 18001  
**Certificate Description:** Occupational Safety and Health Management  
**Date Validity:** 2019

**Standard:** ISO 9001  
**Certificate Description:** Quality Management  
**Date Validity:** 2019

**Standard:** ISO 14001  
**Certificate Description:** Environmental Management  
**Date Validity:** 2019

**Description:** Contractor Qualification Certificate  
**Eligibility:** Water - Grade 2  
Oil & gas - Grade 4  
Facilities and Equipment - Grade 5  
Road and Transportation - Grade 5

## Subsidiary Companies

### Persia Aras Jonoub Consulting Company

Work load capacity of 8,000,000 standard man-hours per year in :

- Feasibility Studies
- License Arrangement
- Finance Arrangement
- Conceptual and Basic Design
- Basic & Detail Engineering
- Project Management

### Persian Farivaran Engineering Company

Work load capacity of 500,000 standard man-hours per year in :

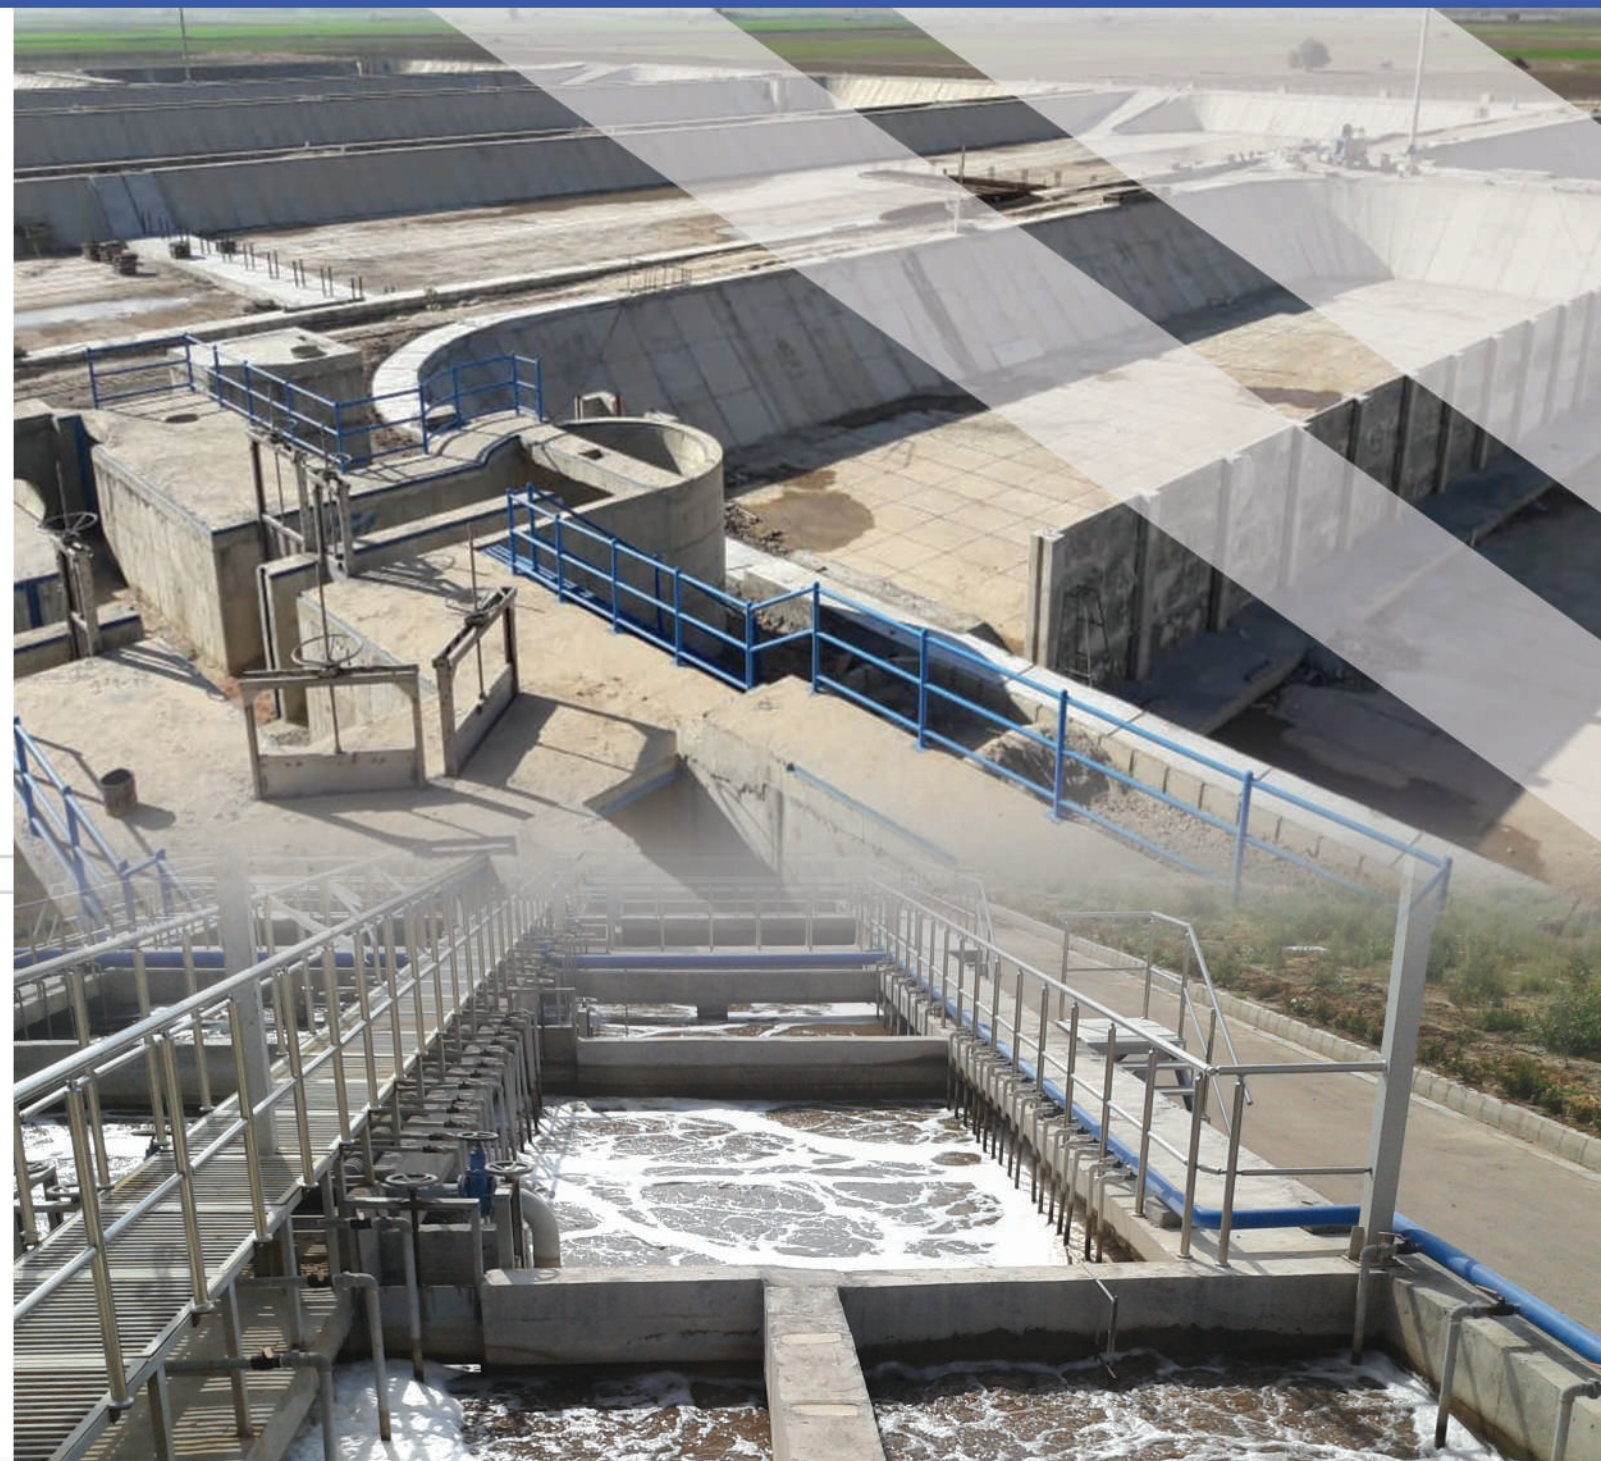

- Procurement Engineering
- Procurement Services
- Equipment Supply

### Arman Salamat Sahba Company

Work load capacity of 300,000 standard man - hours per year in:

- Export
- Import
